rsa PCA

Competences in R&D

Software Engineering	Computer Vision	Data Science	Man-Machine Interaction
Software Architecture Middleware **Embedded Systems** **Distributed Systems** Systems of Systems **Multi-Sensor Fusion**	**Image & Video Processing** Semantic Segmentation **Object Recognition** **SLAM & Visual Odometry**	**Statistical Modeling & Analysis** Inference Analysis **Machine Learning** (NNs, CNNs, Deep Learing, etc.) **Pattern Recognition**	Diverse **Sensors** (RGBD, IMU, EyeTracking,etc.) **Actuators** (Displays, Augmented Reality, Auditory & Haptic Feedback **Implicit / Explicit Interaction Design** **Speech Recognition** **Visual Attention** Analysis **Cognitive Load** Analysis
